

ONE DAY OPERATOR ECDIS TYPE SPECIFIC TRAINING

CLASS/CONFERENCE ROOM OR IN SERVICE TRAINING

A high intensity, one day operator course, which qualifies for type specific certificate mandatory for all navigation officers on ships having the product onboard.

The course will give the participants a basic knowledge in the system description, user interface and functionality. The students may follow examples given on a projector and repeat them on their workstations. A training course made for those who already have some knowledge in the product or will like to have so.
